

I would oppose the expansion of LPFM service. I currently receive K-Love via 88.9 on my radio station in the Texarkana area. I listen to this regularly. It provides quality entertainment that is family oriented. I am not afraid to let my children listen to this music. A large population in this area listen to KLove and it would be a disservice to us if we could not receive this station. It is in the best interest of our community to provide quality family oriented entertainment on the radio. There is not much entertainment left which is okay for the entire family, and KLove is one that is okay for the entire family.
